

## The people turning on potential

Flexible, highly trained millwrights and field managers available for turnaround support and rapid response for unplanned events on your critical rotating assets and BOP equipment

From maintenance support to emergency response, our Union Field Service (UFS) expert craftsmen are always ready for your rotating equipment challenge. With on-demand rapid deployment of safe, highly trained, flexible teams, our people maintain availability on site wherever you need us most.

Our team of rotating equipment experts are ready to minimize your operational downtime. No matter the scope, we can be assembled to update and restore your operation with precision.

Why EthosEnergy UFS?

1. **Personnel and hands-on expertise:** specially trained crews to step up with your team when you need us most
2. **Flexible service teams:** a crew built to size whenever you need it, from day-to-day routine maintenance to emergency outage support
3. **Best-in-class response time:** strategically placed tooling centers across the US to ensure rapid response, minimizing your downtime

All backed by EthosEnergy's full shop and engineering support to provide a single-source for your rotating equipment needs.

### Onsite and shop overhauls

-  Turbomachinery

## SAFETY AND TRAINING

EthosEnergy is committed to the safety of our employees as well as our clients. Our goal is zero incidents across all of our locations and customer sites. We are pleased to share that EthosEnergy is an industry leader in safety based on TRIR/LTIR and EMR as we strive to achieve our goal.

Our field service millwrights are members of the United Brotherhood of Carpenters (UBC) where they receive specialized training. EthosEnergy also provides thorough training specific to our applications to each millwright to ensure that every employee meets the quality and safety standards required by our clients.
